RoomWizard Lotus Notes Synchronization Package Release Notes
January 31, 2017

Overview

This document contains release notes for RoomWizard Synchronization Software 3.9.14 for Lotus Notes calendaring system. This software allows RoomWizard to synchronize with a Lotus Notes environment.

Compatibility

Unsecure RoomWizards (http based) are supported on all versions of Domino 8.5.0 and Domino 9.0.1 regardless of the Fix Pack.

Secure RoomWizards running FW 4.5.1.0 and earlier are not supported on Domino 8.5.1 (Fix Pack 5 and later), Domino 8.5.2(Fix Pack 4 and later), Domino 8.5.3(Fix Pack 6 and later) and Domino 9.0.1 (Fix Pack 3 and later) due to the fact that these Domino versions use a TLS based handshake authentication protocol that is not compatible with the RoomWizard. Upgrading to FW 4.6.1.0 will allow secure RoomWizards to be supported on the aforementioned versions of Domino.

What's New in 3.9.14?

-
This is a release to include the following features and improvements.

Feature	Description
Removed "+" from cache mode display	Plus sign that appears on the Front Panel when scheduling meetings in cache mode is now fixed
Fixed special characters and blank entries issue for Host/Subject fields.	All Languages recognize all relevant language characters and blank host/subject names(works alongside RW 4.6.1.0 or greater FW).
The Time Zone features adjust for DST in US/European time formats	The Time Zone features adjust for DST in US/European time formats which had not been consistent with formats previously used.

Documentation and Downloads

Documentation and software downloads for the RoomWizard are available at:
http://www.steelcase.com/resources/documents/?search=RoomWizard

Minimum System Requirements

- Unsecured RoomWizards (http based) must be running on FW 4.5.1.0 or later.
- Secured RoomWizards (https based) must be running on FW 4.6.1.0 which can be downloaded from the latest version of the RoomWizard Administrative Console (1.3)

Known Issues:

Severity	Issue Description
Minor	Meetings do not appear on the RoomWizard reservation webpage timeline when accessed on the day that DST ends. Note - the timeline shows meetings on the actual device.
Minor	Meetings scheduled in the Liberian Time Zone appear eight hours behind on the RoomWizard Front Panel due to a TZ calculation string of 8 (PST) rather than 0 (GMT) in the connector code.
Minor	If continuous meetings are booked over several days (i.e. 30 meetings scheduled per day over a span of 10 days), the upgrade progress message stays at "Upgrade 95%"
Minor	Remove daylight savings time for Turkey since it no longer applies
