DEFECT FIXES

- Fixed intermittent issue where Space Amenities would not save changes

OPEN DEFECTS

- Spaces that have not been updated with the appropriate "Space Type" in the Space Details are calculated as Rooms.
  - Work around: Update the Space type if the space is not a room.
- Paired sensors intermittently do not automatically show as paired in device manager.
  - Work around: Refresh to update data
- Pop-up Ad-blocker in Chrome can block the "Export CSV"
  - Work around: Allow pop-up from WPA

WHAT'S NEW

FEATURE	DESCRIPTION
Verbiage changes	Changed Bookable to Reservable; 'Peak Usage' to 'Peak Period'; and Utilization to '% Time Occupied'

DEFECT FIXES

- Fixed Event Duration chart to display all events
- Ensured that WPA does not seize when quickly selecting objects
- Resolved a defect with the Date/Time selector that caused the UI to seize
- Enforced consistency among spaces; if a space has some but not all of their sensors offline it will display their status as Yellow
- Minor UI alignment and consistency across WPA

OPEN DEFECTS

- Spaces that have not been updated with the appropriate "Space Type" in the Space Details are calculated as Rooms.
  - Work around: Update the Space type if the space is not a room.

- Paired sensors intermittently do not automatically show as paired in device manager.
    - Work around: Refresh to update data
- Pop-up Ad-blocker in Chrome can block the "Export CSV"
    - Work around: Allow pop-up from WPA
